

Sivac-One COMPACT is a robust and high quality portable frame to perfectly fit the most demanding live video applications where simplicity, reliability and low latency are key requirements.

Sivac-One COMPACT provides lightweight with dual external DC power supply housing for 1x SMP1000 module. Integrated rear fan for module cooling.

PHYSICAL CHARACTERISTICS

Power

2 DC Power inputs supporting redundancy

Voltage : 12 VDC

Typical consumption: < 25 W

Dimensions: 375mm x 158mm x 43mm

Weight: 1.4 Kg (weight with SMP1000 module. External power supplies not included)

Operating Temp.: 5°C to 40°C
